February 9, 2011

Mr. Walter Ragsdale, P.E.
City of Farmersville
205 South Main
Farmersville, TX 75442

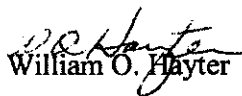

Dear Mr. Ragsdale:

Re: US 380 Utility Relocation Project
HEI#116026

This is in response to your request for engineering fee adjustments for changes to the utility relocation plans. I have attached a summary which identifies the proposed scope change, with fee increases for that particular item. Items 1) and 2) may require easement surveys, and I have included a fee for those. Should easement surveys not be necessary, this item can be subtracted from the total.

After your review of the attached, please let me know what questions you have. As always, we appreciate the opportunity to be of service to Farmersville.

Sincerely,

William O. Hayter

WOH/slm

Cost Estimate
Farmersville 380 Additional Engineering Services

Additional scope as requested by City:

1) Water line adjustments, including bore changes, hydrants, and additional mains	\$ 4,000
2) Easements, including survey, notes and plat, if required	\$ 1,500
3) Resize sanitary sewer mains	\$ 2,000
